| Certified Local Government Grant through State of Minnesota Historic Preservation Office                                                                        | Certified Local Governments may use these federal matching grants for local preservation projects. Funding comes from the Historic Preservation Fund, appropriated annually by the U.S. Congress; federal regulations require that the SHPO distribute to CLGs at least 10 percent of its allocation each year. Applied for funding to develop an updated preservation plan. Our current plan is from 1991. An updated plan will reflect changes in both the field of preservation and the city, including the updated Comprehensive Plan, and Climate Action Plan, and will set up a future rewrite of the Preservation Guidelines. The new Plan will be completed by a third party with oversight and input from our Heritage Preservation Commission and staff. Staff will apply for additional grants to meet the match requirement; the original proposal met the match requirement with in-kind contributions from staff and volunteer time. | Mathias Hughey  | 01/10/25         | \$30,000.00         | 10%        | Yes                            | 07/16/05              | 01/15/25                   | Yes                      | 07/01/25                          |
