

Illustrative Scoreboard Signage Diagram

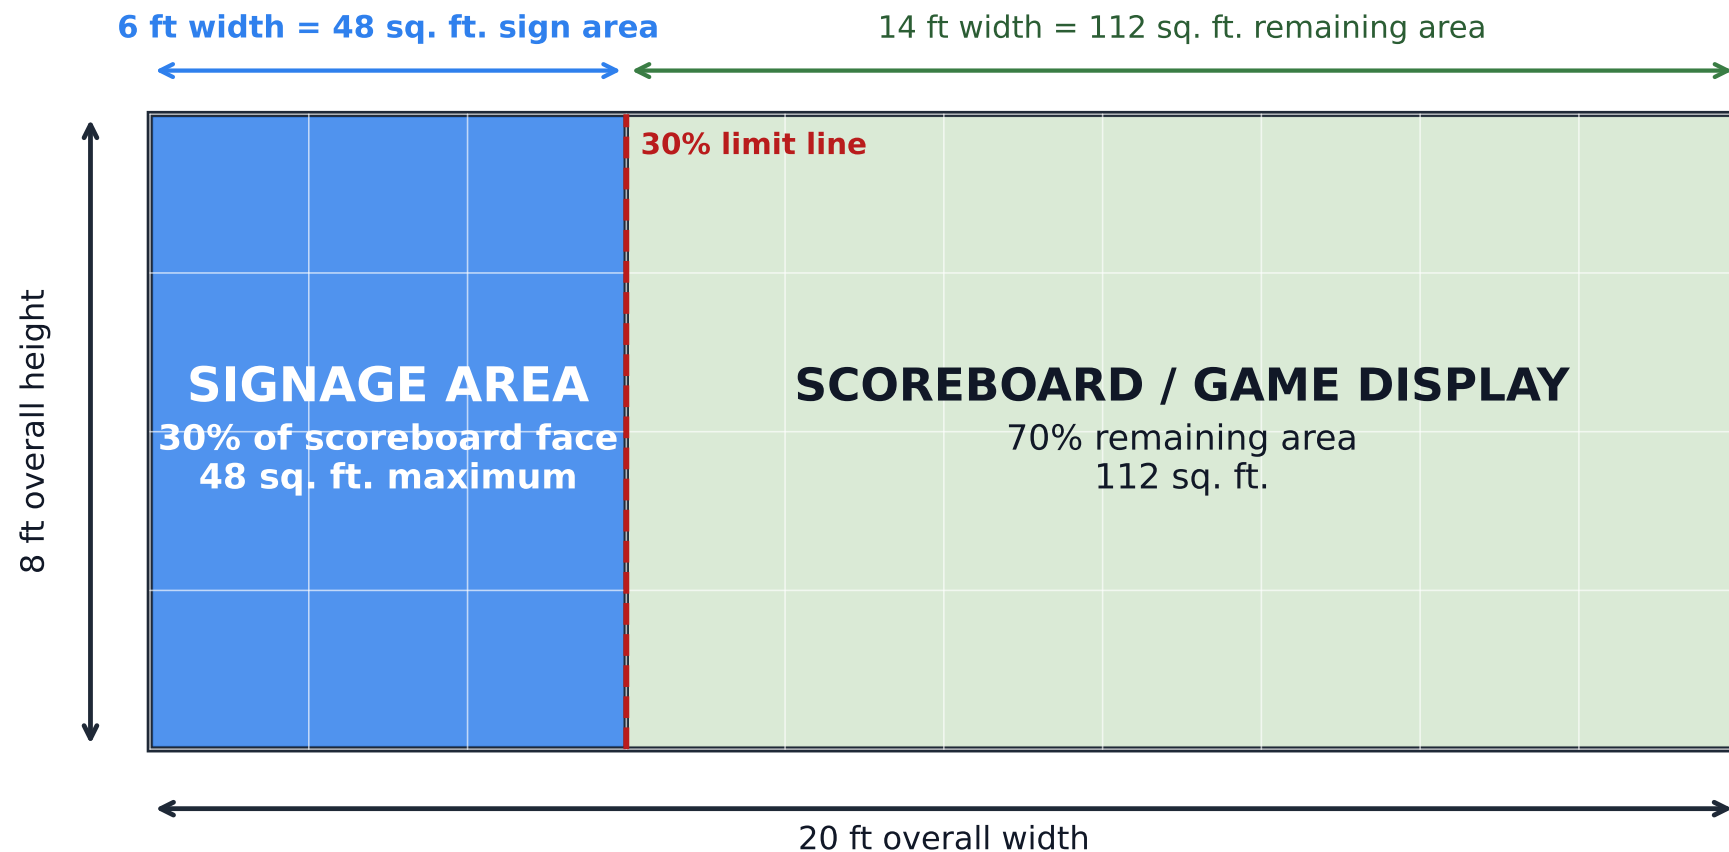

Example: 160 sq. ft. scoreboard face with 20% maximum allowable signage

Calculation: 160 sq. ft. x 20% = 32 sq. ft. maximum signage area. This diagram assumes a 20 ft x 8 ft scoreboard face; other dimensions may be used if total face area remains 160 sq. ft.

Illustrative Scoreboard Signage Diagram

Example: 160 sq. ft. scoreboard face with 30% maximum allowable signage

Calculation: 160 sq. ft. $\times$ 30% = 48 sq. ft. maximum signage area. This diagram assumes a 20 ft $\times$ 8 ft scoreboard face; other dimensions may be used if total face area remains 160 sq. ft.
