Estimate Details

This estimate is to provide and install a sidearm water heater to replace the existing water heater that is leaking. The heater also vents into the chimney and the chimney won't be available for vent do to the new Ultra high efficient boilers using the old chimney. The new side arm heater will be a forty gallon heater with a recovery of 3 gallons per minute. We will provide and install a Taco ECM pump to replace the existing pump. The new pump will be located by the existing electrical. We will connect it to the existing piping. The last item is to provide and install the controls necessary to connect to the Johnson control system.

ALTERNATE:

We will provide and install a new Tecmar pump sequencer. This will insure equal run time on both of the pumps and can send an alarm to Johnson EMS upon pump failure.
ADD TO BASE BID AMOUNT \$1440.00

Sub-Total \$9,110.00

Total \$9,110.00

Terms 50% down remainder upon completion
Submitted By John McQuillan

All material is guaranteed to be as specified. All work to be completed in a professional manner according to standard practices. Any alteration or deviation from above specifications involving extra costs will be executed only upon written orders and will become an extra charge over and above the estimate. All agreements contingent upon delays beyond our control. Purchaser agrees to pay all costs of collection, including attorney's fees. This proposal may be withdrawn by us if not accepted by the above due date. I have the authority to order the above work and do so order as outlined above. It is agreed that the seller will retain title to any equipment or material furnished until final and complete payment is made, and if settlement is not made as agreed, the seller shall have the right to remove same and the seller will be held harmless for any damages resulting from the removal thereof.
