 - DSICyclebank – Share a portion of reimbursement from residential recycling reimbursements.
 - DSI – Youth Activities – Drop-off and roll-off where 100% of the proceeds go to local youth Organizations.

Strategy 5: Reduce solid waste through diversion, recycling, and reuse

Northfield will be a zero-waste community.

Guiding values

Outcomes

1. Northfield has robust policies and procedures in place to reduce the quantity of solid waste that is sent to the Rice County landfills.
2. All organic materials are diverted from the waste stream through a community-wide curbside compost collection system available to all property owners and renters.

Actions

1. Decrease total per capita municipal solid waste handled 30% by 2030.
2. Achieve 70% organics landfill waste diversion by 2030.
3. Increase diversion of potential recoverables by 15% by 2030.
4. Increase recycling from 32% to 35% of total municipal solid waste handled by 2030.
5. Consider establishing a "deconstruction" program for municipal demolition projects.
6. Conduct a citywide study to identify large contributors of solid waste and develop a plan to address waste reduction.
7. Explore a municipal/citywide organics collection program.
8. Work with county and other partners to establish reuse and recycling of building materials.
9. Offer grants, loans, other financial incentives to support business development that reduces solid waste generation and/or in the building sector.
10. Actively recruit complementary businesses, especially industrial users, that effectively use/reuse waste products from existing businesses.
11. Explore low- and zero-waste provisions in sustainable building policies.

2045
Comprehensive
Plan

Environmental Quality Commission Input

- Generally supportive of the service offering provided in contract
- In support of clause in contract to roll-out City-Wide Organic, but leave as is now with voluntary offering through Northfield Curbside Compost.
- Spring Cleanup – Two Saturdays in May can other vendors be present (recycle/reuse) to divert waste from landfill

Housing and Redevelopment Authority

- City Wide Spring Cleanup – Can one of the cleanup days on Saturday can be moved near Greenvale Elementary
- HRA exploring cost supporting grant and partnership with HCI

Housing and Redevelopment Authority

- HRA 4-year pilot cleanup (Viking Terrace & Florellas)

Year	Tns of Trash	Mattresses	Tires w/rims	Tons of Tires	*Total Cost
2018	11.57	29	5	1.67	\$5,859.12
2019	9.61	60	16	.5	\$8,614.54
2020	14.32	59	70	1.9	\$10,302.92
2021	9.63	40	13	.88	\$8,540.06

*This cost is only the financial cost to the HRA, this doesn't include staff time to organize, or the volunteers needed to successfully carry this event out.
