Summarize your reasons for wanting to serve on this body:

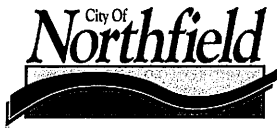

I strongly believe that no human-being should be deprived of basic rights. Every citizen deserves fair opportunity in education, employment, housing and social services regardless of their color, creed, race, origin, sexual orientation, age, family status or religion. Human rights affect the happiness, health and prosperity of a community. I have always been involved in social justice one way or the other and would like to take this opportunity to serve Northfield community. Race relationships and diversity is also very important for any community and i think i can bring some value in human rights commision body for having a diverse background.

Your background applicable to serving on this body:

I was born in Pakistan and i have contributed in fight for educating less fortunate kids in my Area. We worked with different organizations and individuals to line up financial aid for poor kids who couldn't afford to go to school. The problem is that if you are born in poor family, you are less likely to get the proper education and come out of poverty. You will never come out of this vicious cycle which is true everywhere including the United States. We also worked with women to empower them financially so they could be financially independent of their spouses and come out of abusive relationships. They don't have to suffer just because they don't have the financial means to live on their own. I was also member of blood donor society in my University and helped organized blood for poor patients who couldn't afford to buy blood.

Summarize your reasons for wanting to serve on this body:

As a member of the Northfield community and part of the largest underrepresented group within the community, I want to see change and see more inclusivity within our town. I have lived in Northfield for over 20 years and have seen the population change drastically. I believe the city boards, council, and commissions should represent the population of Northfield, as of right now it does not. I want to be a part of the Human Rights commission to act as a representative and give a voice to those who are not able to speak for themselves.
