## WHAT WAS

### Designed for (2000)

- 20 households per day
- 3,000 people per year
- 250,000 pounds of food per year

## WHAT IS

**3x**

### Currently supporting (2025)

- 80-100 households per day
- 9,000 people per year
- 1,000,000 pounds of food per year

## WHAT COULD BE

**10x**

### New construction

- 2,500,000 pounds of food per year

## What's getting missed?

- Opportunities to rescue food from local retailers
- Opportunities to source, store, and deliver diapers and menstrual products to thousands of children and women in the region, etc.
- Opportunities to support more households who need help

## Centralize distribution

- Opportunity to centralize distribution of:
  - School supplies
  - Hygiene
  - Clothing
  - Winter coats
  - And more!
