## Convention & Visitor's Bureau Meeting of February 19, 2019

Items of interest include:

- Lisa has hired a tourism/chamber assistant to help get things done while she figures how to move forward in her Chamber President position. It isn't certain that we will be hiring someone to fill her position, as it is currently configured. Lisa is thinking about having Jane Bartho (current Chamber Membership and Events Coordinator) take on some of the work she was doing as Director of Tourism, and we are going to give it some time and see what the need is.
- Weather was an issue for lodging in January, but February is looking better.
- We heard an interesting report from the Riverfront Enhancement Committee. They are working on getting a non-motorized boat landing in by the end of summer '19, and also adding lighting to bridges and along the river.
- A big Earth Day event is being planned for April 27th. Division Street will be shut down. Stay tuned for more details.
