CITY OF NORTHFIELD, MINNESOTA
ZONING BOARD OF APPEALS RESOLUTION ZBA #2022-003

A RESOLUTION BY THE ZONING BOARD OF APPEALS OF THE CITY OF NORTHFIELD, MINNESOTA, APPROVING A VARIANCE REQUEST FOR BLUFF VIEW SUBDIVISION, BLOCKS 1, 2, AND LOTS 1-8, 21, AND 22, BLOCK 3

WHEREAS, Bluff View LLC (the “Applicant”) is the owner of certain property platted as Bluff View in the City of Northfield, which plat is attached hereto as Exhibit A (the “Plat”); and

WHEREAS, Northfield City Code, Chapter 34, Land Development Code (“LDC”), Section 3.2, Table 3.2-2, Site Development Standards for N2 District, sets the maximum allowed building area ratio (“BAR”) at 30%; and

WHEREAS, the Applicant desires to and has requested a variance to increase the allowable BAR percentage of building coverage per lot from 30% to 46% for Blocks 1, 2, and Lots 1-8, 21, and 22, Block 3 in the Plat (the “property”); and

WHEREAS, the above-referenced property is legally described in Exhibit B, which is attached hereto and incorporated herein by reference; and

WHEREAS, Minnesota Statutes, section 462.357, and Northfield City Code, section 8.5.15, establish the procedures and criteria for consideration by the Zoning Board of Appeals of a requested variance to the LDC and shall be subject to the Type 6 review procedure as established in Northfield City Code, section 8.4.9, Type 6 Review Procedure (Quasi-Judicial Decision by the Zoning Board of Appeals); and

WHEREAS, pursuant to Minnesota Statutes, section 462.357, subd. 6, and Northfield City Code, section 8.5.15, the Zoning Board of Appeals may only grant applications for variances where practical difficulties in complying with the LDC exist and each of the following criteria are satisfied:

- (a) The variance is in harmony with the general purposes and intent of this LDC;
- (b) The variance is consistent with the Comprehensive Plan;
- (c) The property owner proposes to use the property in a reasonable manner not permitted by this LDC;
- (d) The plight of the landowner is due to circumstances unique to the property not created by the landowner; and
- (e) The variance, if granted, will not alter the essential character of the locality; and

WHEREAS, the Zoning Board of Appeals held a public hearing, following required public notice thereof, on September 15, 2022, and has reviewed the requested variance regarding the property from regulations in the LDC identified herein and has considered the required statutory variance criteria identified in the Staff report and proposed findings with respect to such criteria.

NOW THEREFORE BE IT RESOLVED BY THE ZONING BOARD OF APPEALS OF THE CITY OF NORTHFIELD, MINNESOTA, that the Northfield Zoning Board of Appeals has duly considered the required criteria contained in state law and the LDC as applicable to the above-requested variance regarding the property legally described herein, and hereby adopts the findings of fact contained in the Staff report, which is attached hereto and incorporated herein by reference as Exhibit C.

BE IT FURTHER RESOLVED that the above-requested variance is hereby approved and granted, based upon the above-referenced adopted findings, to increase the allowable BAR percentage of building coverage for lots located on the property from 30% to 46% for Blocks 1, 2, and Lots 1-8, 21, and 22, Block 3 of the Plat.

PASSED by the Zoning Board of Appeals of the City of Northfield this 15th day of September 2022.

EXHIBIT B

PROPERTY LEGAL DESCRIPTION

Lots 1-16, Block 1; Lots 1-8, Block 2; and Lots 1-8, 21, and 22, Block 3, Bluff View, Rice County, Minnesota

EXHIBIT C

FINDINGS OF FACT

Northfield Land Development Code Table 3.2-2 Site Development Standards for N2 District sets the maximum allowed BAR at 30%. The applicant is requesting to increase this limit to 46% for Blocks 1, 2, and 3. Analysis of the variance request is addressed below.

Criterion (a) The variance is in harmony with the general purposes and intent of the LDC.

The purpose of the Neighborhood General 2 (N2) district is to create a pedestrian-friendly environment, such as found in the R1 district, with strong neighborhood qualities, such as a grid-like street pattern, consistent block size, compact development, a range of housing types and architectural styles, street connectivity, sidewalks, and homes located in close relationship to the street. In addition, the N2 district will include greenways and natural areas, and options for neighborhood-serving commercial. This development pattern is the preferred future pattern for the city, as expressed in the comprehensive plan.

Finding:

The project is in harmony with the general purposes and intent of the LDC. The proposed use is consistent with the general goals for the N2 zone district. With the variance, the applicant will be able to provide a more compact development.

The Land Development Code was adopted to protect and promote the public health, safety, morals, and general welfare of the city. More specifically, the purpose of these regulations is to:

- 1.1.1 Maintain and enhance the community's distinct small town character.
- 1.1.2 Preserve and protect the area's natural, historic, and cultural resources while providing for improved methods of integrating these resources in the community.
- 1.1.3 Encourage growth in infill locations as the desired location of development with expansion on the edge of the city a secondary priority.
- 1.1.4 Create residential community areas with strong neighborhood qualities including pedestrian-friendly streets, community gathering spaces, and basic commercial needs within walking distance.
- 1.1.5 Encourage the development of neighborhoods that incorporate a variety of housing types to serve the needs of a diverse population.
- 1.1.6 Allow for places with a mixture of uses that are distinctive and contribute to the city's overall vitality.
- 1.1.7 Provide standards and guidelines for continuing strategic growth and sustainable development.
- 1.1.8 Provide for the expansion and diversification of the economic base to assure a strong economy.

1.1.9 Promote an ethic of sustainability in all activities to ensure that proposed development and redevelopment will, at a minimum, conserve energy and natural resources.

1.1.10 Improve and promote connectivity to better serve residents and to improve the function of the overall street network.

1.1.11 Ensure that proposed development is of human scale, primarily pedestrian-oriented to the extent appropriate, and designed to create exceptional streetscapes and pedestrian spaces.

1.1.12 Minimize vehicle traffic by providing for a mixture of land uses, pedestrian-oriented development, compact community form, safe and effective multi-modal traffic circulation (e.g., pedestrian, bicycle, and vehicular), and adequate on- and off-street parking facilities.

1.1.13 Protect the rural character of certain areas of the community as identified in the comprehensive plan.

1.1.14 Encourage vibrancy in the downtown core and fringe areas.

1.1.15 Ensure compatibility between different types of development and land uses.

1.1.16 Create a comprehensive and stable pattern of land uses upon which to plan transportation, water supply, sewerage, energy, and other public facilities and utilities.

The proposal is not in conflict with any LDC goals. It meets the following purposes:

1.1.1 Maintain and enhance the community's distinct small town character.

1.1.4 Create residential community areas with strong neighborhood qualities including pedestrian-friendly streets, community gathering spaces, and basic commercial needs within walking distance.

1.1.5 Encourage the development of neighborhoods that incorporate a variety of housing types to serve the needs of a diverse population.

1.1.11 Ensure that proposed development is of human scale, primarily pedestrian-oriented to the extent appropriate, and designed to create exceptional streetscapes and pedestrian spaces.

1.1.12 Minimize vehicle traffic by providing for a mixture of land uses, pedestrian-oriented development, compact community form, safe and effective multi-modal traffic circulation (e.g., pedestrian, bicycle, and vehicular), and adequate on- and off-street parking facilities.

Criterion (b) The variance is consistent with the Comprehensive Plan.

The Land Use chapter of the Comprehensive Plan will be consulted for any development proposal based on the following steps. If a proposal is not consistent with recommendations of any one of these steps, the proponent should re-evaluate and make adjustments (or provide justification for deviation) if the proposal is not aligned with the following three aspects:

1. Intent: Development proposals will reflect the spirit and values expressed in the 12 principles (statements of intent) (pages 4.9 to 4.13).

2. Location: Development proposals will be consistent with the Conservation and Development Map (page 4.18) and location descriptions (pages 4.14 to 4.15).

3. Character: Development proposals will be consistent with the Framework Map (page 4.19) and recommendations and context descriptions (pages 4.15 to 4.17).

Finding:

The variance is consistent with the Comprehensive Plan.

Intent:

1. The small town character will be enhanced.

The proposal is to construct modest homes with a small town character.

2. Location: The natural environment will be protected, enhanced and better integrated in the community.

When the subdivision was platted, the project was integrated into the community and the surrounding natural environment through the street and trail network.

3. The preference for accommodating future growth is in infill locations, then redevelopment/ land intensification opportunities, and then on the edge of existing developed areas.

This project area is in the pipeline for growth.

4. New and redeveloped residential communities (areas) will have strong neighborhood qualities.

The proposed homes will have strong neighborhood qualities such as being in close proximity to the street, attractive architecture, a modest floor plan and area, and front porches.

5. Environmentally-sensitive and sustainable practices will be integrated into new developments and redeveloped areas.

The proposed homes will easily integrate into the development. The smaller lots and smaller homes are a more sustainable development method.

6. Places with a mix of uses that are distinctive and contribute to increasing the city's overall vitality are preferred.

n/a

7. Neighborhood-serving commercial will be small scale and integrated with the residential context.

n/a

8. A wider range of housing choices will be encouraged - in the community as well as in neighborhoods.

The new custom homes are designed for single-level living, filling a gap in the housing market.

9. Rural character of certain areas of the community will be protected.

n/a

10. Streets will create an attractive public realm and be exceptional places for people.

Streets in the development were platted to create an attractive public realm.

11. Places will be better connected, in part to improve the function of the street network and also to better serve neighborhoods.

The street network exists and is well connected.

12. Opportunities will be created to walk and bike throughout the community.

The development contains ample walking and biking connections.

Location:

The project is located in the Pipeline Area of the Conservation and Development map, which is appropriate for development.

Character:

The project is located in the Neighborhood General area of the Framework Map, typified by single-family homes.

Criterion (c) Property Owner proposes to use the property in a reasonable manner not permitted by the LDC.

Finding:

The requested variance will result in a reasonable use of the property otherwise not permitted by the LDC. The Building Area Ratio restriction is in conflict with the goal of creating more compact development. The homes, as designed, meet the LDC setback requirements, therefore meeting the intent of the LDC. However, the percentage of lot coverage needs to be increases with the smaller lots.

Criterion (d) The plight of the landowner is due to circumstances unique to the property not created by the landowner.

Finding:

The plight of the landowner is due to a conflict within the LDC. The lots were platted to meet the intent and requirements of the LDC. However, the LDC emphasis on compact design failed to take into account how the lot coverage limit affects smaller lots.

Criterion (e) The variance, if granted, will not alter the essential character of the locality.

Finding:

Supported: Granting the variance will not alter the essential character of the locality. The project will be compatible with the character of the surrounding properties. The home designs do not change and the setbacks will not change.
