WIRE FRAUD ALERT

Internet fraud — the use of Internet services or software with Internet access to defraud victims — is on the rise in real estate transactions.

THESE SOPHISTICATED CRIMINALS COULD:

- **HACK INTO YOUR E-MAIL ACCOUNT** or the e-mail of others involved in your real estate transaction and may direct you to wire money to the hacker's account.
- **SEND FRAUDULENT E-MAILS** that appear to be from your real estate licensee, lender, or closing agent.
- **CALL YOU** claiming they have revised wiring instructions.

Buyers/Tenants and Sellers/Owners are advised to:

- (1) Never wire funds without confirming the wiring instructions directly with the intended recipient.
- (2) Verify that the contact information for the wire transfer recipient is legitimate by calling a known phone number for the broker or closing agent. Do not rely on the information given to you in an e-mail communication.
- (3) Never send personal information through unsecured/unencrypted e-mail.

If you suspect wire fraud in your transaction:

- (1) Immediately notify your bank, closing agent, and real estate licensee.
- (2) File a complaint online at the Internet Crime Complaint Center (IC3) at <http://www.ic3.gov>.

The undersigned acknowledge receipt of this wire fraud alert and understand the importance of taking proactive measures to avoid being a victim of wire fraud in a real estate transaction.

ARBITRATION DISCLOSURE

- 2.
3. You have the right to choose whether to have any disputes about disclosure of material facts affecting the use or
4. enjoyment of the property that you are buying or selling decided by binding arbitration or by a court of law. By agreeing to
5. binding arbitration, **you give up your right to go to court for claims over \$15,000.**
6. By signing the RESIDENTIAL REAL PROPERTY ARBITRATION AGREEMENT ("ARBITRATION AGREEMENT") on
7. page two (2), you agree to the following:
8. (1) disputes with demands which fall within the jurisdictional limits of the conciliation court shall be resolved in the
9. applicable conciliation court; and
10. (2) all other disputes shall be subject to binding arbitration under the Residential Real Property Arbitration
11. System ("Arbitration System") administered by National Center for Dispute Settlement ("NCDS") and endorsed
12. by the Minnesota Association of REALTORS® ("MNAR"). The ARBITRATION AGREEMENT is enforceable only
13. if it is signed by all buyers, sellers and licensees representing or assisting the buyers and the sellers. The
14. ARBITRATION AGREEMENT is not part of the *Purchase Agreement*. **Your *Purchase Agreement* will still**
15. **be valid whether or not you sign the ARBITRATION AGREEMENT.**
16. The Arbitration System is a private dispute resolution system offered as an alternative to the court system. It is not
17. government sponsored. NCDS and the MNAR jointly adopt the rules that govern the Arbitration System. NCDS and
18. the MNAR are not affiliated. Under the ARBITRATION AGREEMENT you must use the arbitration services of NCDS.
19. All disputes about or relating to disclosure of material facts affecting the use or enjoyment of the property, excluding
20. disputes related to title issues, are subject to arbitration under the ARBITRATION AGREEMENT. This includes claims
21. of fraud, misrepresentation, warranty and negligence. Nothing in this Agreement limits other rights you may have under
22. MN Statute 327A (statutory new home warranties) or under private contracts for warranty coverage. An agreement to
23. arbitrate does not prevent a party from contacting the Minnesota Department of Commerce, the state agency that
24. regulates the real estate profession, about licensee compliance with state law.
25. The administrative fee for the Arbitration System varies depending on the amount of the claim, but it is more than initial
26. court filing fees. In some cases, conciliation court is cheaper than arbitration. The maximum claim allowed in conciliation
27. court is \$15,000. This amount is subject to future change. In some cases, it is quicker and less expensive to arbitrate
28. disputes than to go to court, but the time to file your claim and pre-hearing discovery rights are limited. The right to
29. appeal an arbitrator's award is very limited compared to the right to appeal a court decision.
30. **A request for arbitration must be filed within 24 months of the date of the closing on the property or else the**
31. **claim cannot be pursued. In some cases of fraud, a court or arbitrator may extend the 24-month limitation**
32. **period provided herein.**
33. A party who wants to arbitrate a dispute files a Demand, along with the appropriate administrative fee, with NCDS.
34. NCDS notifies the other party, who may file a response. NCDS works with the parties to select and appoint an arbitrator
35. to hear and decide the dispute. A three-arbitrator panel will be appointed instead of a single arbitrator at the request
36. of any party. The party requesting a panel must pay an additional fee. Arbitrators have backgrounds in law, real estate,
37. architecture, engineering, construction or other related fields.
38. Arbitration hearings are usually held at the home site. Parties are notified about the hearing at least 14 days in advance.
39. A party may be represented by a lawyer at the hearing, at the party's own expense, if he or she gives five (5) days
40. advance notice to the other party and to NCDS. Each party may present evidence, including documents or testimony
41. by witnesses. The arbitrator must make any award within 30 days from the final hearing date. The award must be
42. in writing and may provide any remedy the arbitrator considers just and equitable that is within the scope of the parties'
43. agreement. The arbitrator does not have to make findings of fact that explain the reason for granting or denying an
44. award. The arbitrator may require the party who does not prevail to pay the administrative fee.
45. **This Arbitration Disclosure provides only a general description of the Arbitration System and a general overview**
46. **of the Arbitration System rules.** For specific information regarding the administrative fee, please see the Fee Schedule
47. located in the NCDS Rules. Copies of the Arbitration System rules are available from NCDS by calling (866) 727-8119
48. or on the Web at www.ncdsusa.org or from your REALTOR®. If you have any questions about arbitration, call NCDS
49. at (866) 727-8119 or consult a lawyer.

Radon in Real Estate Transactions

All Minnesota homes can have dangerous levels of radon gas. Radon is a colorless, odorless and tasteless radioactive gas that can seep into homes from the soil. When inhaled, its radioactive particles can damage the lungs. Long-term exposure to radon can lead to lung cancer. About 21,000 lung cancer deaths each year in the United States are caused by radon.

The only way to know how much radon gas has entered the home is to conduct a radon test. MDH estimates 2 in 5 homes exceed the 4.0 pCi/L (picocuries per liter) action level. Whether a home is old or new, any home can have high levels of radon.

The purpose of this publication is to educate and inform potential home buyers of the risks of radon exposure, and how to test for and reduce radon as part of real estate transactions.

Disclosure Requirements

Effective January 1, 2014, the Minnesota Radon Awareness Act requires specific disclosure and education be provided to potential home buyers during residential real estate transactions in Minnesota.

Before signing a purchase agreement to sell or transfer residential real property, the seller shall provide this publication and shall disclose in writing to the buyer:

1. whether a radon test or tests have occurred on the property
2. the most current records and reports pertaining to radon concentrations within the dwelling
3. a description of any radon levels, mitigation, or remediation
4. information on the radon mitigation system, if a system was installed
5. a radon warning statement

Radon Facts

How dangerous is radon? Radon is the number one cause of lung cancer in non-smokers, and the second leading cause overall. Your risk for lung cancer increases with higher levels of radon, prolonged exposure, and whether or not you are a current smoker or former smoker.

Where is your greatest exposure to radon? For most Minnesotans, your greatest exposure is at home where radon can concentrate indoors.

What is the recommended action based on my results? If the average radon in the home is at or above 4.0 pCi/L, the home's radon level should be reduced. Also, consider mitigating if radon levels are between 2.0 pCi/L and 3.9 pCi/L. Any amount of radon, even below the recommended action level, carries some risk.

Radon Warning Statement

"The Minnesota Department of Health strongly recommends that ALL homebuyers have an indoor radon test performed prior to purchase or taking occupancy, and recommends having the radon levels mitigated if elevated radon concentrations are found. Elevated radon concentrations can easily be reduced by a qualified, certified, or licensed, if applicable, radon mitigator.

Every buyer of any interest in residential real property is notified that the property may present exposure to dangerous levels of indoor radon gas that may place the occupants at risk of developing radon-induced lung cancer. Radon, a Class A human carcinogen, is the leading cause of lung cancer in nonsmokers and the second leading cause overall. The seller of any interest in residential real property is required to provide the buyer with any information on radon test results of the dwelling"

Radon Testing

Any test lasting less than three months requires **closed-house conditions**. This means keep all windows and doors closed, except for normal entry and exit.

Before testing: Begin closed-house conditions at least 12 hours before the start of the radon test.

During testing: Maintain closed-house conditions during the entire duration of the short-term test. Operate home heating or cooling systems normally during the test.

Where should the test be conducted? Any radon test conducted for a real estate transaction needs to be placed in the lowest livable area of the home suitable for occupancy. This is typically in the basement, whether finished or unfinished.

Place the test kit:

- 20 inches to 6 feet above the floor
- 3 feet from exterior doors and windows
- 1 foot from exterior walls
- not in enclosed areas or areas of high heat/humidity
- in a location where it won't be disturbed
- 4 inches away from other objects

How are radon tests conducted in real estate transactions?

There are special protocols for radon testing in real estate transactions. Here are the two most common.

Continuous Radon Monitor (CRM)

This test is completed by a certified radon measurement professional with a calibrated CRM for a minimum of 48 hours. The data is analyzed to ensure a valid test. A report is generated by the measurement professional.

Simultaneous Short-Term Testing

Two short-term test kits are used at the same time, placed 4 inches apart, for a minimum of 48 hours. Test kits are sent to the lab for analysis. The lab generates a report. The two test results are averaged to get the radon level.

All radon tests should be conducted by a licensed professional. This ensures the test was conducted properly, in the correct location(s), which includes testing the lowest livable level in each unique foundation type and under appropriate building conditions. A list of these licensed radon measurement professionals can be found at MDH's Radon web site.

Radon Mitigation

When elevated levels of radon are found, they can be easily reduced by a licensed professional. A list of these licensed radon mitigation professionals can be found on MDH's Radon website.

Radon mitigation is the process or system used to reduce radon concentrations in the breathing zones of occupied buildings. The goal of a radon mitigation system is to reduce the indoor radon levels to below the action level. This is done by drawing soil gas from under the house and venting it above the roof. A quality mitigation system is often able to reduce the annual average radon level to below 2.0 pCi/L. The cost of a radon mitigation system averages \$1,200 to \$2,500.

After a radon mitigation system is installed perform an independent short-term test to ensure the reduction system is effective. Operate the radon system during the entire test. This short-term test will confirm low levels in the home. Be sure to retest the house every two years to confirm continued radon reduction.
