by the Northfield City Council**

Purpose:

The City of Northfield fosters a culture and policy environment that makes it possible for Northfield to be a vibrant city where our immigrant and refugee residents can fully participate in and be integrated into the social, civic, and economic fabric of their adopted City.

Overview and Assumptions

1. Race matters
2. We aren't just talking about individual acts of bigotry, we are talking about institutions and systems that perpetuate inequity. We are all a part of institutions and systems.
3. We have a responsibility for advancing racial equity.

Advancing Racial Equity

A national practice

CENTER FOR SOCIAL INCLUSION

LOCAL AND REGIONAL GOVERNMENT
**ALLIANCE ON
RACE & EQUITY**

Values and realities

- All men are created equal
- With liberty and justice for all
- Government of the people, by the people, for the people, shall not perish from the earth

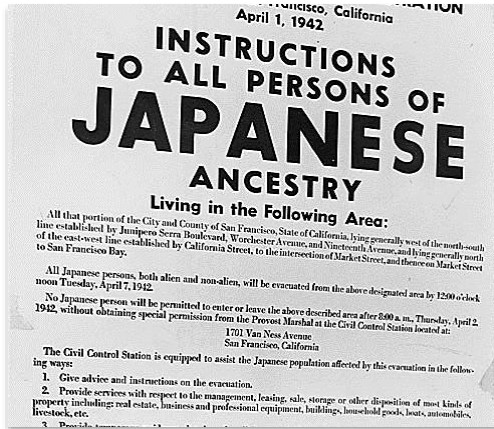

RACE: the power of an illusion

History of government and race

Initially explicit

Government explicitly creates and maintains racial inequity.

Became implicit

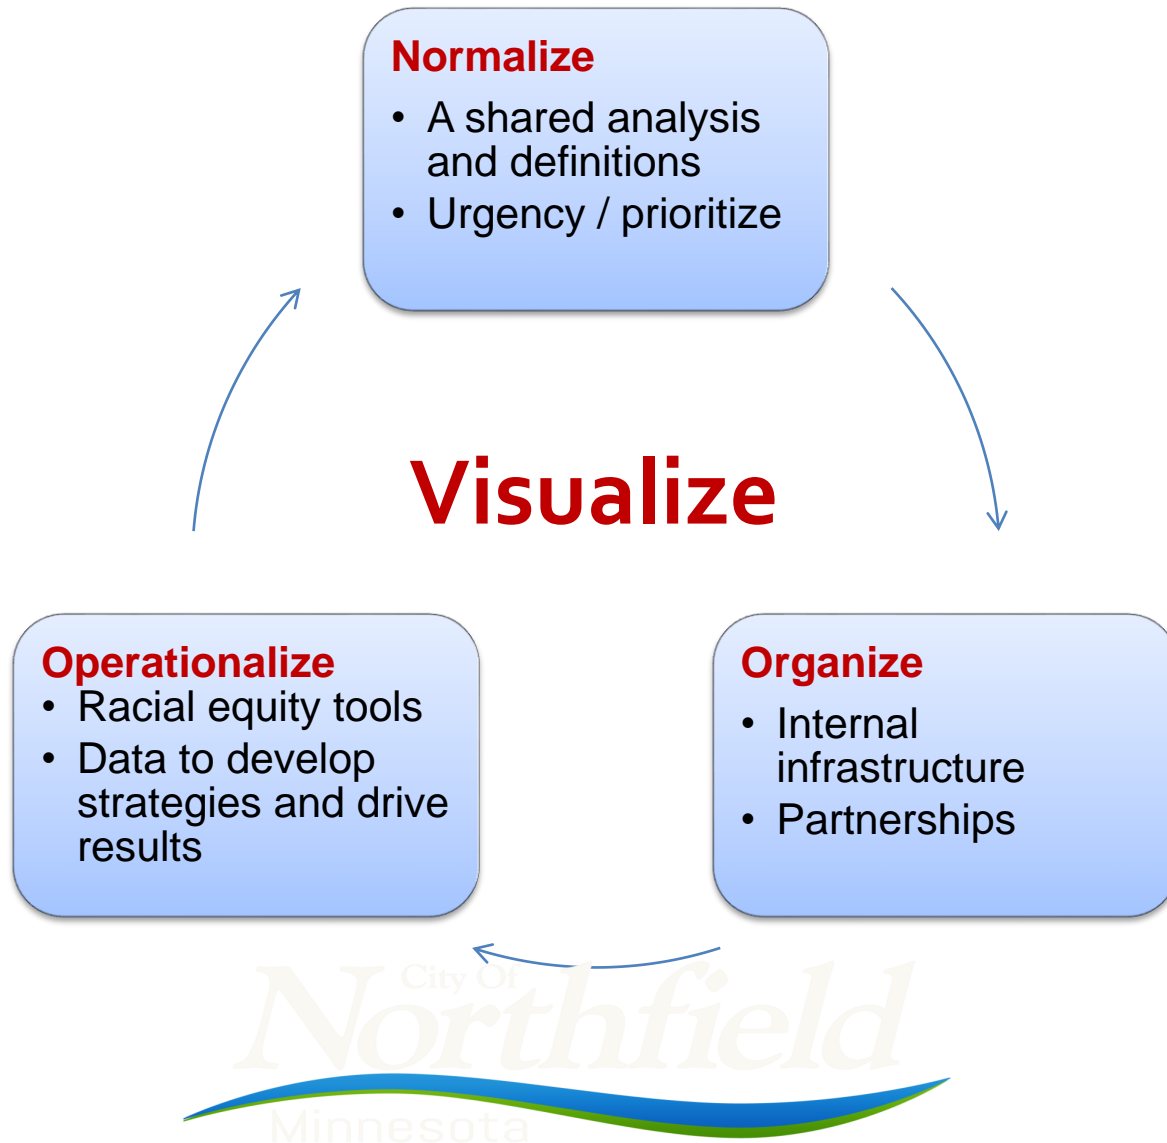

Discrimination illegal, but "race-neutral" policies and practices perpetuate inequity.

Government for racial equity

Proactive policies, practices and procedures that advance racial equity.

National best practice

Equity? Equality?

What's the difference?

Racial inequity in the U.S.

From infant mortality to life expectancy, race predicts how well you will do...

EQUALITY VS. EQUITY

Racial equity means:

- **Closing the gaps** so that race does not predict one's success, while also **improving outcomes for all**
- To do so, we have to:
 - ✓ Target strategies to focus improvements for those worse off
 - ✓ Move beyond “services” and focus on changing policies, institutions and structures

- 668 youth took part in free programming at the Greenvale Park Community School.
- \$89,000+ was received by low-income Northfield youth for college through the college savings matching program, Dollars and \$ense.

How We Think

Humans need meaning.

- Individual meaning
- Collective meaning

Only **2%** of emotional cognition is available consciously

Racial bias tends to reside in the **unconscious** network

We unconsciously think about race even when we do not explicitly discuss it.

Explicit bias

Expressed directly

Aware of bias / operates consciously

Example – Sign in the window of an apartment building – “whites only”

Implicit bias

Expressed indirectly

Unaware of bias / operates sub-consciously

Example – a property manager doing more criminal background checks on African Americans than whites.

Examples of implicit bias

Screened auditions account for up to 46% of the increase in the percentage of females in symphony orchestras since 1970.

Claudia Goldin, Cecilia Rouse:
The Impact of "Blind" Auditions on Female Musicians (1997)

What to do with bias?

- Suppressing or denying biased thoughts can actually increase prejudice rather than eradicate it.
- Openly acknowledging and challenging biases allows us to develop strategic interventions.

**What creates
different outcomes?**

Institutional / Explicit

Policies which explicitly discriminate against a group.

Example:

Police department refusing to hire people of color.

Institutional / Implicit

Policies that negatively impact one group unintentionally.

Example:

Police department focusing on street-level drug arrests.

Individual / Explicit

Prejudice in action – discrimination.

Example:

Police officer calling someone an ethnic slur while arresting them.

Individual / Implicit

Unconscious attitudes and beliefs.

Example:

Police officer calling for back-up more often when stopping a person of color.

Individual racism:

- Pre-judgment, bias, or discrimination by an individual based on race.

Institutional racism:

- Policies, practices and procedures that work better for white people than for people of color, often unintentionally or inadvertently.

Structural racism:

- A history and current reality of institutional racism across all institutions, combining to create a system that negatively impacts communities of color.

Putting theory into action

- What are the opportunities for institutional actions to advance racial equity?
