

4x4 Committee Report

The 4x4 Committee met again on Tuesday, September 4. We reviewed the Banner policy, and the Roundtable members offered valuable insights to consider, including making the policy City wide (as opposed to just downtown) that we can also use it in the future for other banner projects, such as along the Hwy 3 corridor. We also discussed next steps and the timeline for installation of the Nick Swearer sculpture being donated by the city by the Save the Northfield Depot group. Teresa is working with Dave Bennett to get a base designed as soon as possible. It needs to be installed and publicly dedicated by the end of November to meet the deadlines for the SEMAC grant that funded its restoration.
