

## Report Young Sculptors' Project (YSP) Karna Hauck

Then YSP grant has been submitted to SEMAC with high hopes of an approval for a December 2<sup>nd</sup> start. Sara Hanson is still on board to lead the project and there are kids waiting in the wings ready to apply when the green signal is given. Val Mertesdorf and Karna Hauck completed the financial portion and Teresa Jensen helped with making sure the Northfield City approval/confirmation letter regarding in-kind contributions (which we did not have last time) was completed. The process has been documented for future requests.

## Building the Brand subcommittee of the Nfld Cultural Plan Karna Hauck

The Building the Brand group is in the process of doing a great deal of research around sustainable community calendars. We are brainstorming ways to take what we have that is already in place and going well, and looking at what it will take to encourage city support and/or collaboration to grow our communication network and connection-making for visitors and locals alike. We know that as Northfield grows culturally with more music, theater and arts events, it will be in everyone's best interest to have a community calendar that is robust and effective.
