

Report from Barbara Evans on Park and Rec. and Housing and Redevelopment Authority for January 2020 meeting.

Park and Rec—no new minutes since last report
Barbara Evans

Housing & Redevelopment Authority

No additional information in the minutes, but a continued reference to revising rental codes—unclear about which ones.

They are going to discuss housing stock and need.

****personal note:** Have they assessed what has happened to the affordable that we used to have? Torn down? Increased rent? Air BnBs?

To colleagues on the HPC:

With St. Olaf looking to clear at least the north side of St. Olaf Avenue for their newly announced project, is there a way to relocate and make those houses available for affordable housing?

Question to all—has Planning Commission, City Planning Office or anyone else seen requests from St. Olaf? At this time, we neighbors have not been notified of any neighborhood meetings, etc., which seem to be required in the LDC for “College Development” zone changes.
