Summarize why you are interested in serving:

I have lived in Northfield for over three quarters of my life. The town, and the landscape around it sparked my interest in the environment, which shaped my college major and career plans. Now, I see serving on this board as the perfect way to give back. Working on local issues with the City of Northfield will allow me to make meaningful impacts on local issues, directly benefiting my neighbors, family members, and even myself.

Summarize your personal background and attributes you feel are relevant to consideration of your appointment such as community involvement, experience serving on governing boards, training, education, work history, or other personal values, experience or perspectives:

I graduated from St. Olaf College in 2019, with a degree in Environmental Studies. While there, I was captain of the cycling club, and served on the board of OUTS, the student outdoors club. In both of those positions, I worked to increase student interest in the environment and outdoors, often focusing on local areas and issues.

After college, I accepted an AmeriCorps position with the Minnesota Pollution Control Agency's GreenCorps. In this role, I serve with River Bend Nature Center in Faribault. There, I work on varied environmental topics, addressing issues from resource use to pollution and invasive species. My work has me behind a desk, where I have developed a detailed sustainability plan, in the field, where I work to tackle issues at the source, and in classrooms, where I have inspired the next generation of environmentalists across Rice County.

Summarize why you are interested in serving:

In my first term on the Hospital Board I have learned a lot about the Hospital and its operational and financial situation. I believe I have contributed to the discussion and decision making and would be able to contribute even more in a second term. I am able and willing to serve and hope to be reappointed.

Summarize your personal background and attributes you feel are relevant to consideration of your appointment such as community involvement, experience serving on governing boards, training, education, work history, or other personal values, experience or perspectives:

I recently retired after 16 years as the Vice President and Treasurer of Carleton College. I have served for a total of 35 years as the Vice President and Chief Financial Officer at three institutions of higher education. I have also served as a trustee of another university, and as board member and officer of several non-profit organizations. Before joining the Hospital Board I served on the Northfield Economic Development Authority board, including a year as President.

I believe that I can listen, synthesize and help to frame issues and alternatives in ways that are helpful for management and the board in reaching productive and creative decisions. As a long time officer of colleges and universities I have worked with many boards and have respect for the work that staff do in preparing and presenting to the board. I respect the decision making roles of boards vs management and try to be supportive of management and the CEO, while offering appropriate input and guidance.

Summarize why you are interested in serving:

I am interested in helping develop affordable housing for Northfield. I previously served on the HRA for 11 years (from about 1996 to 2007) and resigned from the board then because of work and time conflicts. I am retired now and have time to be on the board.

Summarize your personal background and attributes you feel are relevant to consideration of your appointment such as community involvement, experience serving on governing boards, training, education, work history, or other personal values, experience or perspectives:

I am a retired lawyer with experience in real estate and housing development issues, both from my legal training and experience and from my prior service on the HRA. There is clearly a continuing need for various types of affordable housing in Northfield, both to help people at lower income levels and for the city's economic development by increasing work force housing. I would like to help with those issues.
