

Shadow Report for July HPC Meeting from Barb Evans

Housing and Redevelopment Authority by Barb Evans:

The June meeting of the HRA did not take up any issues that would seem to also be issues for our consideration.

They looked at the City's Strategic Plan and they introduced their budget preparation.

The rest of their meeting dealt with their budget in one way or another: the Payment Assistant Program and Energy Rebate Programs.

Park and Recreation Advisory Board by Barb Evans:

This Board is not currently discussing anything with cross-over interest to us.

Please Note:

***In an article in the Northfield News, I Note that as the Riverfront vision moves forward that we can expect to be involved in changes to Bridge Square and other river front initiatives that may involve the backs of historic buildings. The beginning of a study to remove the dam in some fashion is on that wish list.
