Heineman spoke on the history of The Crossing Lot 5 and Tempel reviewed the specifics of the variance request.

Kennelly and Koester, of Rebound Development Partners, reviewed the project scope to the PC members. Kennelly reviewed the challenges and discussed the many site design variations they analyzed. Kennelly stated the benefits of the project, how they are open to working with the community on the project.

Chair Gasior inviting the public to speak.

Joan Spaulding – 421 Division St. S. (Unit 2) – stated there would be three Starbucks in Northfield if this variance were approved. She is not in support of Starbucks and stated the company is in direct competition with the other locally owned coffee houses. Spaulding also stated another coffee house will be going into the new Farmers State Bank location. She wishes the PC would take into consideration to not allow this Starbucks.

Charlie Kyte – 455 Rosewood Rd. – stated he and his wife previously lived at The Crossings condominiums. He is in favor of the Starbucks project. Kyte stated he works as a consultant for Rebound Development, but is not affiliated with this project. Kyte discussed how long it has taken to develop the project and it helps fulfill the strategic plan to infill properties.

Rick Estenson – 10541 Ibson Ave. – stated his support of the project and bringing business to town. He is a proponent of small businesses and felt the Starbucks will bring taxes, jobs, tax base while providing an opportunity for infill development.

Bob Thacker – 505 Ivanhoe Ave – stated he is a newer resident in town and discussed Starbucks commitment to community. He commented on the lack of a coffee place on the highway and thought this was a great proposal.

Tammy Enfield – 1158 Bluff Street, Dundas – stated she is a Northfield Chamber, NEC board member, and has her business in Northfield. She thought a drive through coffee shop would be well received on the north end of town and appreciated the parking being addressed on site.

Norman Oberto – 701 Banberry Ct. – stated he is in support of the project and recognizes how much work has gone into this design by Kennelly and Koester. Oberto is excited about the hotel project and thinks the Starbucks would be a good fit with minimal effect to the businesses surrounding it.

Chris Ekern – 409 Plum St. N. – stated this area is gateway to downtown and the redevelopment of the area is finally living up to that with the renovation of the creamery across the street to Tanzenwald Brewing. Ekern welcomed a new option compared to the tattered signs and weeds currently on the Starbucks lot. He stated if developers are willing to take the risk, the Planning Commission should take advantage of the opportunity.

Chair Gasior opened the floor for other questions by the applicants, public, and commissioners.

Discussion was held on:

- the MNDOT right-of-way process*
- the original design with 2 buildings on the lot,*
- the legal issues of gifting the MNDOT right-of-way to the property owner,*
- traffic counts,*
- concern on the amount of increased traffic,*

- creating a welcoming view to downtown and being pedestrian friendly*
