File #: 20-451, **Version:** 1

Meeting Date: September 2, 2020

To: Members of the Heritage Preservation Commission

From: Mikayla Schmidt, City Planner

Staff Updates

Staff Updates:

1. Mural on Domino's Wall

Attached is the original concept image. Staff is expecting the abstract tropical floral theme to change to an abstract native flowers theme, but the artist has not submitted this yet.

2. Ames Mill Wall

The MnSHPO has deemed the overlay wall repair as not creating an adverse effect. Barr Engineering is beginning the prep work for this approved repair. The aesthetic of the finish and color of the new wall repair is still being deliberated between the SHPO and Barr, but will come back to the HPC once a concept has been agreed upon between those two entities. Then it will come forward to HPC for approval via a certificate of appropriateness.
