EQC Meeting Date: June 14, 2018

To: Members of the Environmental Quality Commission

From: Justin Wagner, Utilities Manager

Discussion of Garbage Contract with DSI Representative

Action Requested:

The Northfield Environmental Quality Commission discusses the Garbage Contract with DSI Representatives. EQC is to ask the questions they compiled at the April EQC meeting.

Summary Report:

At the April EQC meeting, EQC members came up with questions for DSI representatives regarding the garbage contract. The list of questions EQC members asked are attached along with the current garbage contract for reference. Staff would like EQC members to discuss the garbage contract and think of any modifications that should be considered in the renewal of the contract.

Staff intends to bring a formal motion to the July meeting for EQC's approval to ultimately be brought before City Council for consideration in the fall.
