EQC Meeting Date: October 20, 2021

To: Members of the Environmental Quality Commission

From: Beth Kallestad, Program Coordinator

Presentation on Invasive Plant Management.

Action Requested:

The EQC receives a presentation on ideas for invasive plant management.

Summary Report:

Professor Kim Smith from Carleton College requested time to give a presentation to the EQC regarding invasive plant management. This presentation shares a 20-year vision for developing a program to manage invasive plants in Northfield. It is based on research done by students in an advanced environmental policy seminar.
